OUR ARTIST

I was born into a very creative family, and my father, Oscar Panameno, the founder of our Family Business, Torogoz, always motivated me to develop my art.

Thanks to my company's processes and techniques, I leaned towards the Design of Metal Products; this is how I became the Designer of all the product lines we produce: Awards, Decorative and Religious Figures, and a Collection of the Decorative Murals.

But of all the products I have designed, and with which I most identify due to my love of the sea, is the line of Home Accents and Fishing Trophies. I am proud to know that we have rewarded the efforts of competitors in more than 45 countries around the world, and we continue to grow.
